## **Getting Started**

Scratch Jr is a free visual programming app perfect for young learners. Download it on iPad or Android tablet.

### **Lesson 1: Make a Character Move**

Learn the basics by making a character walk across the screen.

### **Lesson 2: Add Sounds**

Make your character talk and play sounds!

### **Lesson 3: Create a Story**

Use multiple characters to tell a simple story.

### **Lesson 4: Make a Game**

Create a simple catching game with scoring.

### **Lesson 5: Animation**

Learn to animate characters with loops and timing.

### **Lesson 6: Final Project**

Students create their own interactive story or game.
